**RE: Albion-Sheridan Landfill  
Health & Safety Plan Addendum**

Dear Mr. Peterson:

Paragraph 18a of the Consent Decree requires that, by June 1, 1999, the Settling O&M Defendants submit an addendum to the approved model Health and Safety Plan ("HASP") prepared for site activities by Woodward Clyde. A copy of this model HASP is included as Appendix B of the final Remedial Design document. You have indicated that Woodward Clyde's model HASP was to be used as a guide for contractors to follow to prepare their own site-specific health and safety plan prior to working at the site. This model plan was prepared with Operation and Maintenance ("O&M") activities included, and lists an expiration date of December 31, 2003.

Upon review of the current HASP, we believe that the model provides an adequate outline from which a contractor can write a specific health and safety plan for the site. The Settling O&M Defendants are currently finalizing selection of a contractor to perform O&M activities at the site. Once an O&M contractor has been selected, and prior to initial monitoring at the site, a site- and contractor-specific HASP will be submitted. At this time, therefore, no addendum is necessary and the current model plan is acceptable to the Settling O&M Defendants.

Based on our telephone conversation of May 26, 1999, I understand that the above approach is acceptable to you and satisfies the referenced Consent Decree provision for the time being. If you have any questions about this letter, please contact me at 517/349-9499.

Sincerely,

A handwritten signature in black ink that reads "Mark Baker". The signature is written in a cursive, slightly slanted style.

Mark D. Baker, P.E.  
O&M Project Coordinator
